Students Feedback on Training and Placement

U JAYASHREE
FCF

INTERNAL TRAINER - MEGALA

The internal training by trainer Megala was focused mainly on C programming. Apart from the external trainings, it gave us more clarity on several concepts. The teaching methodology was so interactive and we were continuously made to answer the questions that she asks us. The questions that were solved in Talentio daily test were discussed in this class. The clear and in-depth explanation of the concepts with real time examples helped us to understand the concepts more clearly. To sum up, the internal training was far better than external technical trainings.

Training: Vael's Academy - Communication

The training comprised of all the grammar and vocabulary part also. I learnt from "what is a noun?" to "how to write an email?". It was like a complete training to read/write/speak english. The training covered all the basics like vocabulary and grammarly and listening/reading/writing activities. The training seemed to be boring in the beginning but it was fruitful in the end as I got a revision of what I've learned in school. It was an effective training.
