## ABOUT THE DEPARTMENT

Civil Engineering is the application of physical and scientific principles for solving the problems of society and enhances the livelihood of people. It is a field which requires knowledge of Structures, Materials, Soil, Hydrology, Mechanics and Environment.

The Department of Civil Engineering was established in the year 2012 with a sanctioned intake of 60. Our department has dedicated, well - qualified and experienced faculty members who are specialized in the above mentioned areas. Undergoing Civil engineering will enable the students to understand the basic concept of infrastructure, modern method of construction and safety aspects.

### **Vision:**

To be a renowned resource centre in the country for obtaining education in civil engineering by equipping the graduates to meet the sustainable development of construction industry for the betterment of society

### **Mission:**

- ✓ To equip the students with deep knowledge in solving complex engineering and real world problems by innovative techniques in association with the industries
- ✓ To motivate the student for higher education and research to face the global challenge
- ✓ To inculcate social responsibility, Ethical values and a spirit of innovation & entrepreneurship in the students
