1. Restricted entry of automobiles

Student, Staff transport mode: Automobile exhausts are one of the largest sources of pollutants. It is imperative for any environmentally responsible organization to tackle this issue, and by keeping the following practices in order, we ensure to reduce the automotive pollution to a large extent.

Students are encouraged to come by college bus and public transit. Staff members are encouraged to opt for car-pooling. Many staff members are already doing it. Public transport is available for the students. Students and employees commuting on bicycles are duly appreciated.

Bicycles

Students are encouraged to commute to the institution by bicycles. Students residing near the college use bicycles or walk to the college.

Public Transport

Government bus stop is available near the college. Students are able to avail the bus facility easily.

College bus Transport

The college operates 10 buses for the benefit of staff and students covering 02 Districts.

Parking

Parking facilities are created for two and four wheelers at two different places inside the campus to ensure safety. They are not allowed to ride vehicles inside the campus.

2. Pedestrian-friendly pathways

The pedestrian platforms are laid on the sides of the main approach road towards all buildings in the campus.

3. Ban on the use of Plastics

Non-Biodegradable plastics are a tremendous burden upon the environment, and in keeping up with our commitment to the protection of the environment we practice the following policies: Plastic is banned in the canteen. Only disposable paper plates, cups or reusable materials are

Institutional Green Policy

Our institution believes in maintaining a green and healthy environment. Every effort is taken to maintain carbon dioxide neutrality by planting trees and plants of different varieties to sustain an eco-friendly campus. The beautiful landscaping not only provides a pleasant learning environment for the students but also captures the attention of the visitors to the campus.

Some other measures taken for a clean and eco-friendly environment are

Mode of transport: Students are encouraged to use bicycles and college bus to commute to college. Separate parking space is provided for bicycles.

Plastic-free campus: The management promotes plastic free campus. They will thoroughly monitor the implementation of the ban and meet frequently to assess and discuss the extent of ban. Carbon neutral initiatives: Reuse of one-side paper printouts are encouraged. Utilization of ERP software and ICT facilitates paperless administration. Rainwater harvesting: Recharge wells and Percolation pipes are installed for proper rain water accumulation and absorption. Environmental Management: The College promotes sound environmental management policies and practices by following the guidelines legislated by State and Central Government bodies, reducing turb preventing pollution and Adopting targets for improving environmental performance with a proper understanding of current environmental needs.

Green Cover Management: The college will initiate and promote activities that will facilitate to a greater extent of green coverage. The Environment Club of the college will be responsible for creating awareness about the need of green environment in the campus.

Carbon Management: The College will ensure the reduction of greenhouse gas emissions and implement a carbon management strategy and use energy efficiently. Energy Management: The college will ensure the consumption of low electrical energy by installing LED bulbs.
